3. Program for the benefit of: Students to test concepts of Physics and compete at national level

4. Objective: To motivate students to showcase their creativity by designing simple physics experiments .

5. Venue of the program: Online platform

Physics students of Kanya Maha Vidyalaya participated in National Anveshika Experimental Skill Test (NAEST) , an annual competition which assesses and nurtures keen observational skills, analytical skills, and experimental skills of an Indian student in Physics. The National Anveshika Experimental Skill Test (NAEST) is organised by The National Anveshika Network of India (NANI) in association with Shiksha Sopan under the leadership of Padma Shri Prof H C Verma (IIT Kanpur). Organising such kind of annual competitions is one of the best methods to spread love of Physics among students and to assess the talented young Physicists among students. Total of 23649 students all over the nation have registered for the screening round and 1008 got selected for the prelims round. KMV Jalandhar, the autonomous and heritage institute, brings this valuable opportunity for the students at KMV. The faculty of P.G. Department of Physics, KMV mentored the students and made them aware of the importance and benefits of]participating in such competitions. Dr. Neetu Verma who is associated with the organisation team mentored the students and guided the interested students.

KMV Physics students appeared in the Screening round of NAEST conducted in June 2023 where the questions were based on short videos of Physics phenomena/experiments. Navneet Kaur, student of B.Sc. Non Med Sem IV and Amisha Sharma, student of B.Sc. Computer Science Sem IV ,P.G. Department of Physics, Kanya Maha Vidyalaya, Jalandhar have cleared the screening round of National Anveshika Experimental Skill Test and qualified for the Prelims round of NAEST. These students were examined for the next round based on performance of experimental skills in the month of Aug,2023.

Principal Dr. (Mrs.) Atima Sharma congratulates Physics faculty and the winners of NAEST. She motivates and encourages the winners to compete in the upcoming next level of NAEST so as to bring laurels for the institute.

P.G. Department of Physics, Kanya Maha Vidyalaya, Jalandhar and autonomous and heritage institution has always focussed on overall development of young minds by providing hands-on training. Learning by doing science through hands-on science activities and experiments lets students see what they've learned in action and develop a deeper understanding of the subject. At KMV, a proper focus is given on the regular practical training of students as well as teachers.

Recently, KMV Physics teachers underwent a six-day residential training by Prof. H. C. Verma in Kanpur. As a result, they gained valuable expertise and knowledge, which they gladly shared as mentors during the workshop. Their main focus was on promoting experiential teaching methodologies in classroom settings. Consequently, KMV Physics faculty members, Dr. Neetu Verma and Dr. Sangeeta Prasher, along with KMViets were honored to be invited by Padma Shri Prof. H. C. Verma, a distinguished physicist, to conduct a training program for Physics teachers from Navodaya Vidyalayas in Punjab, Haryana, Himachal Pradesh, and Jammu Kashmir. The four-day workshop, titled "Learning Physics through Life," took place at the Navodaya Leadership Institute in Amritsar, under the Ministry of Education, Government of India. This workshop, overseen by Padma Shri Prof. H. C. Verma, a former Professor at IIT Kanpur, aimed to create a platform for educators from the northern region of India to share knowledge, explore innovative teaching methodologies, and enhance their experimental skills.

Further to inculcate a similar culture of innovations among KMV students a proposal for the grant of Anveshika Center at KMV was submitted. Anveshika is an Indian Association of Physics Teachers (IAPT) initiative to create centers across India where students and teachers can learn experiment-based physics and

try out their own ideas. Anveshika centres are established at different places within the country under National Anveshika Network of India (NANI) initiative. Anveshika is essentially an open ended laboratory where uncommon experiments are set up without constraints of any board syllabus or examination. New experiments continuously evolve as and when any idea strikes the students or the teachers. Presently Padam Shri Prof. HC Verma, Physics Department, IIT Kanpur is the NANI Co-ordinator. It is a matter of great pride that KMV has been granted the first and only Anveshika centre in Punjab. Team KMV celebrated this achievement on Sept 1, 2023 in the auditorium, where Principal Prof. (Dr.) Atima Sharma Dwivedi congratulated and appreciated the efforts of the Physics department. "Students in a hands-on science program will remember the material better, feel a sense of accomplishment when the task is completed, and be able to transfer that experience easier to other learning situations." She added.
